

FINANCE AND COMMERCE.

pecial Dispatches to THE BEE.
FINANCIAL
NEW YORK, August 11.

MONEY—Loaned up from 367 per cent, down to 25 per cent, at which figures it closed.

Prime Mercantile Paper—5¢ per cent. Sterling Exchange—Steady; bankers' bills, 4.25¢; demand, 4.89.

Imports of dry goods for the week \$3, 168,000.

Governments were strong and 4 per cent higher for 4's and extended 5's and unchanged for 4's and extended 6's.

S speculation on the Stock Exchange was tame during the morning and quite irregular. There were frequent changes between firms and depression, but taken altogether the market was lower; Wahab preferred, and Jersey Central fell 1 1/4 per cent. In the last half hour stocks were weak and lower on higher rates for money and the revival of exaggerated rumors about the prevalence of yellow fever in the south and damages to crops in the west by recent storms. Lake Shore and some other stocks sold quite freely and went off at 14 1/2 per cent, which affected the balance of the list. In final sales, however, a steady feeling prevailed.

Dr. Norvin Green, convalescing with a report upon a dispatch announcing his retirement from the presidency of the Western Union Telegraph company, in order that he may assume a similar position on the Louisville & Nashville railroad company, at a salary \$30,000 a year, said:

"I heard something about this rumor in Wall street some weeks ago but did not think it worth contradicting, for no one who knows anything about the matter would believe I was going to make such a change and perhaps increase the value of stocks, of which I hold very little, and decrease the value of stock of which I hold comparatively a great deal. This is simply a Wall street tale which has found its way into a newspaper. The only cause for it that I can think of, are the facts that I bought a big house in Louisville when I was there this spring, and that my son, who lives there, was elected a director of this railroad. This guesser, whoever he is, will have to try again."
